LED LIGHT STRIP SET

95771

1.Specifications:

Working temperature:-20℃~+60℃

Package size:L106xW64xH56mm

Output:Three CMOS drain-open output

Supply voltage:DC12-24V

Gross weight:101g

Connecting Mode:Common anode

Product size : L50xW35xH22mm

Max load current: 2A each coloe

2.Control Method:

Adopt wireless control method,function of each button as below:

On/off: the output switch

PAUSE:Stop or star

B+: each press brightness level+1.

B-: each press brightness level-1

s+: each press changing speed+1

s+: each press changing speed-1.

M+:Mode up

M-:mode down

Style changing table as below:

| No | Patterns | Remarks | No | Patterns | Remarks |
|----|------------------------------|--|----|------------------------------|---|
| 1 | Static red | Brightness is adjustable,Speed is unadjustable | 12 | Seven-color gradual changing | Speed and Brightness are adjustable |
| 2 | Static green | | 13 | Red stroboflash | |
| 3 | Static blue | | 14 | Green stroboflash | |
| 4 | Static yellow | | 15 | Blue stroboflash | |
| 5 | Static purple | | 16 | Yellow stroboflash | |
| 6 | Static cyan | | 17 | Purple stroboflash | |
| 7 | Static white | | 18 | Cycan stroboflash | |
| 8 | Three-color jumpy changing | Speed and brightness are adjustable | 19 | White stroboflash | Speed is adjusbable brightness is unadjustable |
| 9 | Seven-color jumpy changing | | 20 | R/B crossfade | |
| 10 | Three-color superposition | Speed is adjustable,brightness is unadjustable | 21 | B/R crossfade | |
| 11 | Three-color gradual changing | | 22 | G/R crossfade | |

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
